Our aim is to exceed expectations.

Competitive Pricing

We source our products in bulk direct from suppliers and hence are in a position to offer competitive prices.

Transport

Our prices include the cost of transport (within South Africa), saving you the hassle of arranging transport.

Quality

We pride ourselves in supplying quality products. Extensive foreign travels to the spice capitals of the world as well as other destinations for our other products, have resulted in us having access to quality merchandise.

We will not compromise quality by adulterating our spices with cheap bulking agents. Quality is in our product purity.
